PROFILE

Experienced marine researcher with a strong foundation in coastal management and oceanographic research. Passionate and highly motivated to leverage data-driven insights and technology for climate change mitigation solutions.

EDUCATION

University of California, Santa Barbara – Bren School of Environmental Science Santa Barbara, CA
Master of Science in Environmental Science Management Sept 2021 – June 2023
Specialization: Coastal Marine Resource Management
Highlighted Coursework: Advanced Data Analysis, Applied Marine Ecology, Biogeochemistry, Physical Oceanography

University of California, San Diego – Scripps Institution of Oceanography La Jolla, CA
Bachelor of Science in Marine Biology Sept 2015 – June 2019
Minor: Environmental Studies
Awards: Biological Sciences Department Undergraduate Excellence in Teaching 2018-19

FISHERIES & MARINE BIOLOGY EXPERIENCE

Sofar Ocean Technologies San Francisco, CA
Coastal Studies Analyst 06/2022 – 08/2023, 20-40 hrs/week

- Managed and analyzed vast data sets from 200+ oceanographic buoys for a marine climate technology startup
- Collaborated closely with marine biologists, data scientists, and hardware engineers to model and predict storm surge impacts and improve accuracy in measuring coastal dynamics and oceanographic forecasting
- Organized and led at-sea testing of in-situ marine sensing equipment in the SF Bay (1-2 times monthly)

National Park Service (NPS) Point Reyes National Seashore, CA
Fisheries Technician 10/2020 – 11/2021, 40 hrs/week

- Orchestrated comprehensive assessments of coho salmon and steelhead trout life cycles
- Tagged and monitored 450 fish, yielding valuable data on recruitment, habitat, and behavioral patterns

NOAA Southwest Fisheries Science Center La Jolla, CA
Marine Research Assistant 11/2018 – 07/2019, 5 hrs/week

- Conducted a 9-month study to research effects of algal bloom biotoxins on marine predator-prey interactions
- Prepared 24-hour lethality assays (LD-50 and LC-50) for toxicity testing and produced technical reports on results

City of San Diego San Diego, CA
Marine Biology and Oceanographic Operations Intern 10/2017 – 10/2018, 20 hrs/week

- Executed at-sea fieldwork; operated and calibrated marine sensing equipment (ROV, CTD profilers)
- Collected and analyzed water samples, fish, and invertebrates to deduce regional water health
- Utilized satellite imagery in ArcGIS to assess broader water quality conditions across San Diego

ADDITIONAL EXPERIENCE

Scripps Institution of Oceanography | CLIVAR and Carbon Hydrographic Data Office La Jolla, CA
Data Manager 02/2019 – 07/2019, 10 hrs/week

- Queried and updated research vessel datasets, rectifying instances of missing or unformatted data using Python

UC Santa Barbara Dept of Earth Science & Oceanography Santa Barbara, CA
Teaching Assistant (TA) 12/2021 – 08/2023, 20 hrs/week

- Facilitated interactive discussions for 350+ students to reinforce critical concepts and enhance comprehension

SKILLS

Fieldwork: At-sea water quality sampling (CTD, YSI), DNA/tissue collection, PIT tagging, fish/invertebrate handling

Communication: Public speaking, community outreach, technical report writing, video production

Programming & Computer: ArcGIS, R/RStudio, Python, Excel, MATLAB
