

SAMANTHA KUGLEN

samanthakuglen@gmail.com • (619) 205-2586 • [Website](#) • LinkedIn • Los Angeles County, CA

PROFILE

6+ years of hands-on lab and field operations. Experienced with the procurement and handling of live marine organisms, lab waste/hazardous materials management, equipment calibration, and team coordination. I am particularly interested in the intersection between innovative hardware solutions and sustainability.

EDUCATION

University of California, Santa Barbara – Bren School of Environmental Science <i>M.S. Environmental Science Management, Specialization: Coastal Marine Resources</i>	Santa Barbara, CA Sept 2021 – June 2023
University of California, San Diego – Scripps Institution of Oceanography <i>B.S. Marine Biology</i>	La Jolla, CA Sept 2015 – June 2019

EXPERIENCE

CSI Electrical Contractors <i>Environmental Specialist</i>	Los Angeles, CA 04/2025–Present
--	---

- Supervise environmental field engineers and field technicians on active utility-scale solar construction sites; assign tasks, monitor progress, and ensure environmental regulatory compliance
- Use Asana and Excel for task assignment, document review tracking, and scheduling across concurrent projects

Captura Corp <i>Marine Scientist</i>	Port of Los Angeles, CA 09/2023–04/2025
--	---

- Sourced live specimens for lab testing: Mediterranean mussels and microalgae cultures (*Tetraselmis*, *Isochrysis*).
- Planned experimental LD-50 studies and coordinated organism testing schedules with third-party subcontractors
- Collected and shipped seawater samples for nutrient analysis; managed disposal of hazardous lab waste materials
- Wrote SOPs for instrument calibration, data collection, and equipment maintenance; managed calibration schedules
- Managed procurement and inventory for all lab and field supplies — PPE, standard solutions, and instrumentation
- Led weekly small boat operations; deployed and recovered ADCPs, ROVs, and CTDs

Sofar Ocean Technologies <i>Coastal Studies Intern</i>	San Francisco, CA 06/2022–05/2023
--	---

- Conducted offshore mooring operations in SF Bay deploying and testing remote sensing buoys
- Coordinated international recovery logistics for oceanographic buoys; documented failure-analysis & repairs

National Park Service <i>Fisheries Technician</i>	Marin County CA 08/2020–11/2021
---	---

- Monitored endangered Coho salmon and steelhead trout populations via in-creek surveys, electrofishing, and PIT tagging; tagged and monitored 450+ fish for recruitment and habitat data

City of San Diego <i>Marine Biology & Oceanographic Operations Intern</i>	San Diego, CA 10/2017–10/2018
---	---

- Executed at-sea fieldwork; operated and calibrated marine sensing equipment (ROV, CTD profilers); collected and analyzed water samples, fish, and invertebrates for regional water health assessment.

ADDITIONAL EXPERIENCE

NOAA Southwest Fisheries Science Center — Research Assistant (algal bloom ecotoxicology)	11/2018–07/2019
Conservation International / UCSB — Master's Thesis (Albacore tuna fisheries analysis)	03/2022–06/2023

SKILLS

Lab & Field Operations: Equipment procurement & inventory management, calibration scheduling & recordkeeping, SOP development, offshore fieldwork in varied conditions

Marine & Biological: Fish and invertebrate handling, species identification, ecotoxicology (EPA protocols), PIT tagging, DNA/tissue collection, PADI Open Water & Advanced Open Water Diver

Project & Task Management: Asana, cross-team scheduling, documentation, staff supervision, Excel
